Skills

- Programming (Python, R)
- Data Visualization (Python, R, Tableau)
- Critical Thinking
- Agentic AI
- Machine Learning
- DB Querying (Postgres, MongoDB)
- NLP
- Leadership and Collaboration

Experience

Freelance: Forward Deployed Engineer, Term Publication August 2026 – December 2026

- Consultant, designer and developer of a mobile app for law-enforcement personnel.
 - Keyword search UI/UX over the traffic-law database.
 - Automated daily pipeline that ingests new traffic law updates.

UBC MDS-CL Capstone, BC Cancer May 2026 – July 2026

- Acted as de facto project manager between the 5-student team and the Dr. Nunez lab, running regular stand-ups and communication.
- End-to-end chatbot development: knowledge bases, RAG pipelines, frontend, UI/UX and an evaluation suite. Chatbot is complete and deployed on AWS, slated for use by real patients in the near future.

Customer Service Representative, Fraser Valley Real Estate Board August 2024 – October 2024

- Supported data entry and client communication workflows.
- Developed custom desktop macros to circumvent software-specific workflow restrictions, reducing processing time by ~5 minutes per document.

Research Assistant, Simon Fraser University November 2022 – May 2024

- Supported academic research via digitization, organization, and analysis of historic economic data.
- 150+ pages of data digitized, analyzed and visualized.
- Data wrangling, EDA and visualization performed in R; OCR-scanning performed in Python.

Projects

BPE Tokenizer From Scratch [Available on Website](#)

- A Byte-Pair Encoding Tokenizer coded from scratch (with no AI assistance). Tokenization is the first step of any machine learning application involving natural language (e.g. LLMs).
- Packages: NumPy

Agent: Kitchen Assistant [Available on Website](#)

- Simple kitchen assistant agent prototype made from scratch (with AI assistance). A friendly agent that provides information about cookbook recipes; ability to scale recipes based on user intent.
- Tool calls: Search Recipes (RAG), Scale Recipe

Education

University of British Columbia (UBC) September 2025 – June 2026

- Master of Data Science, Computational Linguistics

Google Business Intelligence Certificate May 2024 – June 2024

Simon Fraser University (SFU) September 2018 – May 2023

- Bachelor of Arts (Honours with Distinction), Major in Philosophy, Minor in Social Data Analytics.
